Subject: Senate Bills 39 and 40

Mr. Woodby,

Please make the committee aware that the Cedar Rod & Gun Club in Leelanau County, 450 members strong, is in opposition to Senate bills 39 and 40 as they are bad for hunting and outdoor opportunities.

The public lands that we enjoy today are not just ours, but the inheritance of our children and grandchildren. We have the places we enjoy today because our forebears had the wisdom to foresee the pressures that would be placed on our public lands to convert them for expedient commercial interests. A system was devised that invested hunting and fishing dollars in a way to guard against that pressure. Much of which is found in these bills is a regression from those time tested principles.

Thank You
Tim Stein- President Cedar Rod & Gun Club
Cedar, MI
